**A. E.
MICHAEL**

A Good Place to
Trade.

Mr. H. Detelle will have on display at the sample room at Royal Hotel, Stony Plain, on Monday afternoon and every evening, a large assortment of imported goods, best silks in all shades and latest styles; also a big assortment of woolen goods for men's suitings, best quality and fast dye. The prices are reasonable, cheaper than wholesale.

Railway Time Table.

Grand Trunk Railway.
Going east, 2:40 p.m.—Monday, Wednesday, Friday.
5:43 a.m., every morning, stops on flag only.
Going west, 1:30 p.m.—Prince Rupert Express, Monday, Wednesday and Saturday.
1:03 a.m., every day, Vancouver Express, stops on flag only.

Keep the Roads Open

An effort is being made at the present time to bring about legislation to ensure the use of sleighs of standard width. The conditions this winter is surely a good argument for such a move in this province.

It is usually contended that it would be hard to bring this about on account of opposition on the part of the farmers. That may have been the case before the farmers themselves became such general users of automobiles; but now we would think farmers should be strongly in favor of the proposal.

Several attempts have been made this winter on the Base line to do something to improve the road, but practically nothing could be accomplished without expending more money than would be justifiable. If standard-width sleighs were in use, the roads would automatically be kept open, to the benefit of everybody, and the farmers themselves would be the greatest beneficiaries, as we then hear of fewer accidents on the winter roads thru overturned loads of hay, and overturned grain-laden sleighs.

A Calm, Cool & Efficient P.M.

The farmy-looking individual walked into the post-office, stomped around for a while, and finally approaching the wicket inquired—

"Have you anything here for Mike Howe?"

The postmaster (busily engaged in perusing his weekly newspaper) let the sense of the inquiry drift slowly thru his brain, and never bothered looking around.

After a two minute pause the inquiry was again made: "Have you any mail for Mike Howe?"

The postmaster, deigned to turn his head, gave the inquiring one a withering glance and resumed his labors.

It gradually dawned on the man at the wicket that he was being slighted. So, giving three or four whacks on the pine board with a hand the size of a maul-head, he bawled with a 2 ft. bawl: "Have you anything here for Mike Howe?"

This started the fireworks. The otherwise calm, cool and collected Post Master jumped, reared, up, and said: "No, I haven't anything here for your cow, nor your ox, nor your ass, nor your horse, mule or jack, nor anything else that's yours; either in the heavens above or in the earth beneath. If yah wants know anything 'bout yer cow, go on down to the pound; and what's more," etc., etc., etc., right on up to closing time.—Kitchener Record.

LOCAL NEWS.

Mrs. Gates returned to town on Saturday, after a visit with friends at Tofteld.

Mr. Michael had as a guest on Saturday a fellow-townsmen from Ontario, Mr. Donald Gillies, Supervisor under the Produce Merchants Act.

Owing to the poor health of Mrs. Carl Strauss, Mr. Strauss is giving up farming operations, and will again take up carpenter work, as formerly.

Mr. Carter, the P.O. inspector was in Stony last week and gave the local office the once over.

Officer Smith is sporting a nice new pair of 1925 auto plates, the first in Stony this year.

J. C. Ferrier, the De Forest Radio Expert paid Stony and district a visit looking over the sets which Mr. Michael has sold.

Mr. H. Ingram is said to be retiring from the employ of the Imperial Oil, at Stony Plain. There are some half dozen applicants for the position, including a grocer, school teacher and drayman.

At the Misericordia Hospital, on Monday January 19th, to the wife of Mr. Carl E. Clarke, a daughter.

Stony's ratepayers interested in the town's financial position will note that the auditor's report for 1924 is printed on page six of this issue.

Hogs went to \$10 in Stony last Thursday.

The Goetz brothers are now supplying the town with ice for use next summer.

Far buyer Plunkett of Edmonton was in town on Saturday last, and made a clean-up of the pelts in local dealers hands.

Inga Connors meet in Stony Plain, Friday February 6th, when nominations will take place for the councillors in Divisions 1, 3 and 6.

No movie pictures were shown in Stony Plain Saturday evening, owing to the operator failing to make train connections on Saturday afternoon.

Friday was ladies' night at the local skating rink, and a number were out to enjoy themselves, some for the first time. Careful survey the next morning showed not much damage had been done the ice.

The High School Lit had another field day on Friday afternoon last, when the students from Grades 8 and 9 were given a chance. The argument was all about the advisability of introducing moving pictures into the schools, and Orator Lorne Oatway showed the big advantage which would accrue by the adoption of such a course, and won the decision of the three judges by a large margin. Mr. E. Doll lead the opposition.

ED ROSE

COFFEE "is good coffee"

Wheat

With the hours of daylight growing longer and the rays of the sun becoming stronger the farmers of Western Canada will within a few weeks engage in their annual task of ploughing, harrowing, seeding. Of all the manifold industries in which Canadians engage this is by far the most important. It is the foundation work on which all other work, all other enterprises, and the very life and prosperity of the Dominion depend.

Furthermore, aside from its importance, it is easily the largest annual undertaking in Canada, and is only comparable to that undertaking for which it is a preparation, namely, the harvesting, threshing and marketing of the resultant crop. Harvest time sometimes brings disappointment, but seed time is a time of hope, anticipation, expectation.

The story of wheat in Western Canada reads like a romance, although some individual farmers who have sustained several reverses may be rather inclined to look upon it as a tragedy. But it is only when the vision is restricted to a glance over a single year, or a few years, that the tragic features are seen. When the whole perspective is studied the romance and promise outweigh the disappointments and tragedies.

The statement is made in a recent issue of the Winnipeg Tribune that in 1876 Manitoba made its first shipment of wheat to the East—less than a thousand bushels. It was all that could be spared and it was needed in Ontario for seed. Less than fifty years later Western Canada occupied the proud position of the greatest wheat exporting country in the world, sending three hundred millions of bushels to foreign markets.

Even as recently as twenty years ago Western Canada was only exporting 16,000,000 bushels, a mere drop in the bucket of the world's requirements. Today the size of the Western Canada wheat crop is a matter of concern in many countries, and especially so in Britain where it practically fixes the price of bread.

The wheat crop of Western Canada has become the barometer of business throughout the Dominion. A bountiful crop in the West means the placing of orders by the railways for rolling stock and other equipment and the extension of branch lines; it means activity in Eastern factories in the manufacture of larger quantities of goods of all kinds; it means the construction of more interior and terminal elevators, a larger demand for lumber, increased employment for artisans and laborers. A reduction in the wheat acreage and crop means a curtailment in all our national activities.

It should be an inspiration to Western farmers as they prepare their implements and machinery for the approaching seed time to vision the results of the labor. What an incentive and encouragement to realize that as individuals tens of thousands of them are supplying more wheat to feed the world than the whole of Western Canada produced less than fifty years ago! What a feeling of satisfaction should come from the knowledge that they have built the more than four thousand elevators with a combined capacity of nearly 24,000,000 bushels now found in Canada! The great terminals at the head of the Lakes, at Montreal, and now so rapidly expanding on the Pacific coast are the work of the prairie farmers.

And the epic of Western wheat includes the story of flour. The little grist mills of thirty and forty years ago have given place to the great milling industry of today, with the result that a year ago Canada exported flour to one hundred different countries, and the Dominion is rapidly forging to the front as the greatest flour exporting country in the world. Again the work of the prairie farmer.

As the Western Canada farmer follows his plough and seeder this Spring he will be justified not only in his pride in past achievements, but in contemplating what, from all present indications, will be a brighter and more prosperous future. Prevailing prices for wheat are good, there is a world's wheat shortage to be made up, countries like Japan and China are steadily increasing their consumption of wheat, the United States is raising smaller and smaller quantities for export. Steps, too, are being taken to reduce the toll exacted by middlemen on the produce of the West enroute to world markets.

Temporary disappointments and set-backs there may be, but the history of the past and the promise of the future, may well provide encouragement for the Western farmer as he sows his seed, and give him confidence that by following good farming methods, exercising careful management, and putting real energy into his work, he will this year find his efforts crowned with success and abundant reward for his labor.

Find Missing French Plane

Fell While Attacking German Plane in September, 1918

The remains of a German airplane and the skeleton of its pilot have been found in the forest of St. Pierre Vaast near the French battle plane which was discovered by a squad of artillerymen early in January. The French plane, in the debris of which there were two skeletons, has been identified as belonging to the 106th escad, rille. Two machines of that unit collided while attacking a German plane September 23, 1918, and fell into the woods.

Aids Japanese University

Rockefeller, Jr., Gives \$1,600,000 to Restore Library at Tokio

John D. Rockefeller, Jr., has given \$1,600,000 to restore the library of the Imperial University at Tokio. The gift, made in December, brought the total of his donations to art and educational institutions for the past three years to more than \$8,000,000.

The gift to Tokio is the largest of Rockefeller's single contributions and was accompanied by a letter expressing sympathy for destruction of 800,000 valuable volumes during the earthquake and fire of 1923. The amount, four million yen, making it possible for the officials of the university to restock the library after it is rebuilt, was given unconditionally.

Loss From Strikes

Canada's time loss through strikes and lockouts in December was less than in November, 1924, or December, 1923. Department of labor reports show 95 employees involved, with 1,846 working days lost, in two disputes, while in the previous December there were 13 disputes involving 2,446 employees and 28,093 days lost.

No British Dreadnought was sunk by torpedo in the Great War, and only one was seriously damaged by a mine.

Milbrand's Liniment for the Grippe

W. N. H. 1683

Market Flooded With Foreign Products

British Products Undersold By French and Italian Goods

Great Britain is at present importing foreign manufactured goods at the rate of twenty-four million pounds per month. There is still great unemployment in Great Britain. Millions of pounds worth of these imported manufactures are commodities that compete directly with English factories. The home market is being flooded with foreign products. French cloth is underselling British cloth in England; Italian boots and leather goods are appearing in London, and Italian printed cottons threaten to drive Lancashire prints from the market unless something is done to reduce the price or otherwise protect the English industries from foreign competition.—Toronto Telegram.

Heavy Loss On Great Lakes

Fifteen Vessels and 37 Lives Lost During 1924 Season

Life and property loss on the Great Lakes in 1924 was greatest for a number of years, and, according to reports, underwriters will have some red ink figures when they clean up for the season.

During the season fifteen vessels passed out of existence, and thirty-seven lives were lost on boats that were wrecked.

The fifteen vessels that were wrecked in 1924 had a trip capacity of 36,800 tons and figuring twenty trips for each boat, they could move 726,000 tons of freight in a season. In 1923 the fifteen ships that were lost had a trip capacity of 27,400 tons or 548,000 tons for a season.

Swollen Joints, Quickly Limbered Up

Rub On Nerviline

You would be surprised at the wonderful action of "Nerviline" in just such cases. Being thin and not an oil preparation, it is able to penetrate quickly, and down into the tissues, carrying its healing, soothing action wherever it goes. For stopping muscular or nerve pain, for easing a stiff joint, Nerviline is a complete success. Pain, soreness, stiffness all vanish before the magic power of this wonderful liniment. Nearly fifty years of success proves the merit of Nerviline, which is sold everywhere in large 35 cent bottles.

For eight hundred years after its first discovery "the secret of making paper was known only to the Chinese."

A pleasant medicine for children is "Mother Graves' Worm Expeller" and it is excellent for driving worms from the system.

Scholarships For School Boys

Youthful Screen Star Offers Free Tuition to U.S. Students

Ten four-year scholarships for high school boys have been provided by Wesley Barry, youthful screen star, who also has made an initial gift of \$10,000 to Northwestern University. The scholarships will be awarded to those boys anywhere in the United States who show the best records for thrift, as disclosed by savings bank deposits and whose classroom grades are exceptionally high. They will be available, starting next September, and will be continued for ten years. Each scholarship will provide free tuition for four years.

Growth Of Rotary

Organization Is Extending Its Scope To Europe

With more than 800 Rotary Clubs established in Europe, Chesley Perry, of Chicago, international secretary of the world Rotary organization, has sailed from New York to open an office of the Rotary secretariat in Zurich, Switzerland, for the administration of European Rotary affairs. Rotary officials here say that their organization now has more than 2,000 clubs in 28 nations, and a total membership of 105,000 members.

Come cause much suffering, but Holloway's Corn Remover offers a speedy, sure and satisfactory relief.

Union Bank Completes Successful Year In Strong Liquid Position

The Annual Report and Financial Statement of the Union Bank of Canada for the year ending Nov. 28th, 1924, was presented to the shareholders at the Annual General Meeting, at the Head Office, on Tuesday, January 13th, 1925. The Directors' Report was made by Mr. M. Bull, Vice-President, in the absence of Mr. W. R. Allan, the President.

Last year's Directors were re-elected, and the officers for the ensuing year are Mr. W. R. Allan, President, Mr. G. H. Thomson, Mr. Stephen Haas, and Mr. M. Bull, Vice-Presidents.

The President's address, read by Mr. Bull, voiced confidence in the future of Western Canada and of the Union Bank. The General Manager, Mr. J. W. Hamilton, in that part of his address concerning the Financial Statement, pointed out some very strong features, such as:—

Total Assets	\$120,575,115
Reserve and Undivided Profits	\$ 2,069,434
Liquid (or quickly convertible) Assets equivalent to 52.22 per cent. of the Bank's total liabilities to the Public—a very high ratio	\$ 57,628,100
Deposits, amounting to which a gratifying proportion, \$56,987,204 is in Savings Accounts	\$ 92,275,016
Investments, represented by Dominion and Provincial Government Securities, Canadian Municipal Securities, British, Foreign and Colonial Securities, Railway and other Bonds, Debentures and Stocks	\$ 26,735,987

A copy of the complete report may be obtained from any Branch of the Bank.

Union Bank of Canada

To Tap Peace River

Tentative Plans For New Line To Open Up New Country

The new railway line which is to tap the Peace River, according to the conviction expressed by Premier John Oliver, of British Columbia, is to begin about sixty miles east of Brule Lake, at a place called Obed, on the Canadian National main line.

It will follow the Athabasca River northward for 35 miles and then follow a curve bulging slightly to the east until it reaches Sturgeon Lake, 40 miles east of Grand Prairie. One branch will then run eastward to Sturgeon Lake and another northward to a point halfway between McLeod and Peace River crossing on the Edmonton, Dunsmuir and British Columbia railway.

The premier stated that he could not be positive that the C.N.R. had come to an absolute decision on this point, but he quoted an interview with Sir Henry Thornton as his authority.

Make the best you can of the worst you get.

A widow should be satisfied with consolation prize in the matrimonial lottery.

A DANGEROUS SEASON FOR THE LITTLE ONES

Winter—with its extreme changes of temperature—one day warm and bright, the next cold and stormy, is decidedly dangerous to the health of little ones. The mother is afraid to take the children out for the fresh air and exercise they need so much. The children are cooped up in overheated, badly ventilated rooms and in consequence many of them are seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They are a sure regulator of the stomach and bowels and in this way drive out constipation and indigestion and break up colds or grippe. By their use babies will be aided in getting over the winter season with perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

You never can tell. Patience is a virtue, provided it isn't pure laziness.

Bee-Keeping Industry Is Spreading To All Parts Of Western Canada Provinces

The saying "the resources of Canada are inexhaustible" is true of no food product more than of honey. From coast to coast there is an abundance of nectar-secreting flowers, which produce each year huge quantities of nectar that only bees can gather and conserve as honey for the use of man. If bees are not present to gather this harvest, it is wasted, and it is no exaggeration to say that millions of pounds remain ungathered each year throughout the Dominion. The abundant sources of nectar and the high average of favorable weather for its secretion and in gathering make Canada a wonderful country for the beekeeper.

In open competition with the world Canadian honey captured first, second, and third prizes at the dairy show in London, England, this year. This is the third time that the first prize has been awarded to Canada.

Honey production has been long a profitable occupation in Ontario and Quebec. The amount produced by these two provinces, in an average year, is estimated at between 15 and 16 million pounds. "British Columbia has also been a producer for many years and in 1922 the crop was 177,830 pounds. In 1922 one apy at the Fraser River valley, B.C., yielded an average of over 300 pounds per colony and one colony yielded over 600 pounds, while the Experimental Apy at Agassiz, B.C., had an average of 194 pounds and in 1923, 182.1 pounds per colony.

The last few years have seen a decided development in the three prairie provinces. Manitoba, in three years, has increased production from 500,000 to over 2,000,000 pounds. This amount will be multiplied several times as the industry develops. Saskatchewan and Alberta are just beginning to realize their possibilities in this direction and the number of beekeepers in these provinces is steadily increasing. Conditions on irrigated areas of Southern Alberta, where alfalfa is grown extensively, are especially favorable for the production of honey. The Dominion Experimental Farm Apy at Lethbridge has for the past six years produced on an average 144.8 pounds per colony, while in 1923 the average was 189.5 pounds, and one colony produced over 472 pounds. The beekeeping industry is as yet only in its infancy in these two provinces and will expand as sweet clover is grown more extensively.

Are Raising More Hogs

Canada's Hog Marketings For 1924 Set New Record

Canada's marketings for 1924 set a record, in hogs, with a total of 3,040,000 at stockyards where federal grading applies, compared with 2,503,000 for 1923. The three prairie provinces increased the supply by 50 per cent.; Ontario, 18 per cent.; Quebec, 17 per cent. Yet the percentage of select was slightly over 1923, and the preferred were three per cent. more. Average prices for 1924 are expected, when available to compare favorably.

The total sheep supply for December was 29,946 compared with 24,640 in December, 1923, but the year's receipts fell off 25,000.

New Canadians

Russians Lead Other Nationalities in Taking Out Naturalization Papers. A total of 7,659 persons took out naturalization papers in Canada last year.

Of this number, Russians exceeded all others. The number of them who became Canadian citizens was 1,247; Italians came next with 1,069; and Americans third with 928. Next in order were Austrians, 805; Poles, 802; Rumanians, 676; Greeks, 509; Swedes, 232; Germans, 231; Belgians, 141; Syrian Turks, 122; French, 103; and Norwegian, 102.

The balance of the total was made up of a miscellaneous assortment of nationalities.

Economy may be the road to wealth, but plenty of those who are compelled to travel it never reach the goal.

W. M. B. 1924

Living Costs Remain Up

Statistics Reveal Cost of Living in Europe Still High

The French ministry of labor has just published statistics showing the cost of living in the last three months of 1924. Taking 100 as the basis of wholesale prices in October on 20 articles of food and 25 articles necessary to the carrying on of industries, the wholesale prices reached the index figure of 507; in November the prices rose to 514 and in December to 518.

In other countries the corresponding figures for October and November were as follows: Great Britain, 177 in each month; Germany, 1215 in October and 1235 in November; Belgium, 555 in October and 569 in November; Italy, 659 and 676; the United States, 167 and 158.

Canada Bars Out Poultry

Canada has prohibited the importation of live chickens, turkeys or geese from New York, New Jersey or Pennsylvania, unless accompanied by certification from the bureau of animal industry that the poultry are free from European fowl pest or similar contagious diseases and has not been exposed. Notice of the action was received by the commerce department, Washington.

Hypnotism Used in Operations

Prof. A. W. Wainach has recently performed a number of surgical operations at the Dorpat University Hospital, Lithuania, which have attracted much attention because hypnosis was substituted for narcotics. The patients are alleged to have suffered no pain.

Revenue From Farm Products

Total Value of Agricultural Products in Alberta

The preliminary estimates of the provincial department of agriculture on the total value of agricultural products in Alberta, including all branches of the industry, for the year 1924, is placed at \$236,449,557.70 as compared with the total in 1923 of \$232,814,591. This estimate is subject to revision as later returns are received and revisions in details made. Though the general production in field crops was much less than last year the prices received were so much higher as to bring the total value up. The preliminary estimate of wheat production is placed in round figures at 62,790,000 bushels, but this may be revised when later returns are received. There has been an increase in dairy products, but a decrease in selling values, so that the total value of all dairy products remain much the same as the previous year.

Australian Owns Large Ranch

Forty Thousand Square Miles Belong To Cattle King

The largest ranch in the world is owned by Sir Sydney Kidman, the Australian cattle king. It embraces more than forty thousand square miles, an area roughly equivalent to the whole of England less Yorkshire and Devon. Don. Luis Terraza, of Mexico, with eight million acres, or one-third less land, has a greater showing of stock, totalling one million head of cattle, seven hundred thousand sheep, and one hundred thousand horses. Perhaps the most on the list is Mrs. King, whose cattle and sheep ranch in the United States is fenced in by three hundred miles of barbed wire.

There's no fool like an old fool, but the one of 16, in the first blush of idleness, is a close second.

A single palm has produced as many as 4,000 dates.

Large Orders For Canadian Flour Received From Russia, Which Was Once Big Grain Exporter

Saskatchewan's Good Record

Financial Condition of the Province in Excellent Shape

The budget recently tabled in the legislature of Saskatchewan, showed that the province completed the fiscal year ending April 30, 1924, with a surplus of \$38,361. The budget was presented by Premier Dunning, who came to Canada from Leicester, England, a few years ago as a poor boy. He stated that comparisons will show that the financial condition of Saskatchewan as a government unit is in good shape.

"With regard to our people, the manner in which they are steadily overcoming the difficulties of the years of deflation is beyond all praise," he said.

Offers Great Opportunities

Canada Could Double Farming Population and Still Have Room

Present dullness of trade in the aftermath of inflation and over-expansion, and affords no ground for depression or lack of confidence in the future, declared John R. Lamb, general manager of the Bank of Toronto, before the annual meeting of the shareholders held in Toronto.

"Immigration must, and will, flow to us," said Mr. Lamb, "because no other country offers greater opportunities and we are still the last west. We can double our farming population and still have room."

There are 73,144,000 acres of rice under cultivation in India.

Air mail service has been introduced in China.

The Soviet Government of Russia has placed orders for a total of 800,000 barrels of flour for immediate shipment to Russian ports. Of this amount 20,000 tons, or approximately 200,000 barrels, was placed in the United Kingdom, and the balance of 600,000 barrels is taken in North American markets.

The placing of such a huge amount of business is a most significant development, especially in view of the fact that Russia was one of the important exporters of grain in pre-war days. The original order for 120,000 barrels was placed with a Canadian mill in mid-December, for shipment from New York not later than January 1. This was followed by additional orders for 450,000 barrels, a large part of which was secured by Canadian mills.

The 800,000 barrels secured in Great Britain and North America would be sufficient to sustain 800,000 persons for a period of 18 months, or about 4,800,000 persons for a period of three months. With the acquisition of the Russian business, the Canadian milling industry made a very favorable export showing for January. All the additional orders placed in Canada are to be paid for in gold and ample security is provided for the carrying out of the contracts.

Best Poultry Raised Here

Says Canada Has Set the Pace for Poultry Raising

Canada has just set the pace for poultry raising, and is at the present time producing a bird with a constitution far superior to any other on the face of the globe, such was the statement by Professor P. C. Elford, of the Dominion experimental farm, Ottawa, in an address at the fifteenth annual dinner in connection with the winter show of the Selkirk Poultry Association.

Professor Elford, who attended the second world congress of poultrymen held at Barcelona, Spain, in April of last year, and who was instrumental in getting the third world congress to meet in Canada in 1927, contrasted poultry conditions of that country and England with those of Canada.

A Record Breaker

Butter and Cheese Production in Alberta Shows Tremendous Growth

Figures of Alberta's butter and cheese production for 1924 have now been made up as closely as possible, though still subject to revision, and they indicate that the past year was a record-breaker in output.

The creamy butter produced by the eighty-nine creameries in operation throughout the province reached a total of 21,560,000 pounds, as compared with 17,848,832 for the year before. This increase is accounted, for partly by the fact that there were fourteen more creameries on the list.

In cheese, however, there was a decline, the figures being 1,675,000 pounds in 1924 and 1,845,000 in 1923. Thirteen factories were making cheese each year.

Urges Greater Game Reserves

Alberta Official Says More Land Should Be Set Aside

Setting aside of more land as game and forest reserves and the practicing of real forest protection in Alberta was urged by Benjamin Lawton, chief forester and game warden of that province, speaking at a conference in Winnipeg called by the Canadian National Railways to discuss the matter of fire prevention and forestry conservation. The conference, presided over by A. E. Warren, general manager, western regions, was attended by sixty delegates, including besides regional officers of the Canadian National Railways, representatives of the federal and provincial forestry officials.

Almanac of Ancient Romans

The ancient Romans had almanacs in the shape of tablets usually made of marble, which were set up at the beginning of the year, and on which were engraved the dates of public games, festivals, and so on for the coming twelve months.

Good Work Of St. John Ambulance Association

Through days of peace no less than in times of war, the activities of the St. John Ambulance Association first aid teams are carried on with a thoroughness befitting their interest as shown by the fact that 829 cases were treated promptly at a one Winnipeg unit alone in the last twelve months. One of the most active local bodies is that connected with the Weston shops, where thirty-five trained ambulance men are available at a moment's notice for first aid duty.

In a machine shop where 3,000 men are employed, accidents are unavoidable and in order to cope with this condition the Canadian Pacific Railway, several years ago, equipped a hospital room for first aid work. Those who give of their time and service to

this humanitarian work do so without remuneration of any kind. In addition to railway duties these men are all members of the St. John Ambulance Brigade proper, and perform public duty when required. They are ready within a few minutes notice to assist at parades, sports, public meetings or where hundreds of people are gathered. In addition to this, one evening a week, from October to May, is devoted to practice and simulation meetings are held once a month during the summer. Mr. J. Thomas Ward, is the corps' chief instructor at Weston, and he is the only active brigade in Winnipeg at the present time.

The corps engages in various competitions for shields and trophies donated by directors and officials of the company. It is compulsory for each member to pass an annual examination in first aid work by a fully qualified practitioner certifying to his fitness to render first aid. Arrangements are made to have each member when off duty available "with equipment" in thirty minutes, that is, in cases of train wreck or any other emergency.

To this ambulance body, which has as its chief surgeon, Dr. A. W. Moody, the past year has been an eventful one. The Weston men carried off honors by winning a beautiful shield donated by the St. John Ambulance Association for the province of Manitoba; the Wallace Nesbitt stationery—and the challenge cup and shield of the Canadian Pacific Railway, western lines.

The Weston men carried off honors by winning a beautiful shield donated by the St. John Ambulance Association for the province of Manitoba; the Wallace Nesbitt stationery—and the challenge cup and shield of the Canadian Pacific Railway, western lines.

A Romance of the Spanish Main CAPTAIN BLOOD by RAFAEL SABATINI

Copyright, 1922, by Rafael Sabatini

"CAPTAIN BLOOD," a Viagraph picture with J. Warren Kerrigan.
"With this title, is an adaptation of this thrilling novel."

SYNOPSIS

Peter Blood, a young Irish physician, is arrested and charged with treason during the battle between Monmouth's rebels and the soldiers of King James. He is sentenced to death by Lord Jeffers after a trial which is a mere travesty of justice. King James, however, orders the convicted rebels sent to the colonies to be sold as slaves, and Blood and Jeremy Pitt are put into the detachment assigned to the Barbadoes. There, when they are inspected by would-be purchasers, Arabella Bishop, niece of Colonel Bishop, the military commander, draws her uncle's attention to Blood. Upon learning that Blood is a physician, Bishop buys him for ten pounds. Later Arabella and Blood meet, but Blood's bitterness at his ignoble position leads him to insult and deride the character of the girl. An English ship brings in wounded Spanish prisoners and while treating their wounds Blood learns of Arabella's true identity. A few days later a Spanish galleon slips into port under false colors and opens fire on the fort.

CHAPTER VIII.—Continued

With the crashing roar of that second broadside, Colonel Bishop went off at the double, despite his bulk and heat, his nerves trotting after him. And then into the stockade, panting and sweating, came Kent followed by the best part of a score of plantation workers, armed with muskets and hangers and some of them equipped with bandoleers. By this time the rebels' convicts were coming in, in twos and threes, having abandoned their work upon finding themselves unguarded and upon scenting the general dismay.

"It's hoping I am ye're fit to meet your Maker."

Kent paused to fling an order to those slaves.

"To the woods!" he bade them. "Take to the woods, and be close there, until this is over, and we've gutted these Spanish swine."

NERVOUS BREAK-DOWN

Pains in Back and Legs Relieved by Lydia E. Pinkham's Vegetable Compound

Ford, Ontario.—"I had a nervous break-down, as it is called, with severe pains in my back and legs, and with fainting spells which were very weak. I was nervous and could not sleep, not as I should and spent much time in bed. I was in this condition for over two years before Lydia E. Pinkham's Vegetable Compound was recommended to me by my neighbor. Before I had taken five doses I was sitting up in bed, and when the first bottle was taken I was out of bed and able to walk around the house. During my sickness I had been obliged to get someone to look after my time for me, but thanks to the Vegetable Compound I am now able to look after myself. I have taken Lydia E. Pinkham's Blood Medicine in turn with the Vegetable Compound, and I can truly recommend these medicines to any one who is not enjoying good health. I am quite willing for you to use these facts as a testimonial."—Mrs. J. SHEPHERD, 130 Jos. Janisse Avenue, Ford, Ontario.

Nervousness, irritability, painful times, run-down feelings and weakness are symptoms to be noted. Women suffering from these troubles, which they so often have, should give Lydia E. Pinkham's Vegetable Compound a fair trial. All druggists sell this medicine.

W. N. U. 1561

The slaves would have obeyed him on the instant, but for Mr. Blood. "What need for haste, and in this heat?" quoth he. He was surprisingly cool, they thought. "Maybe there'll be no need to take to the woods at all, and, anyway, it will be time enough to do so when the Spaniards are masters of the town."

The landing was contested by the militia and by every islander capable of bearing arms with the fierce intolerance of men who know that no quarter was to be expected in defeat. This Spanish commander knew his business. Having gained the advantage of a surprise blow, his guns turned now upon the open space behind the mole, where the incompetent Bishop had marshalled his men. Two of the militia into bloody rags, and covered the landing parties which were making the shore in their own boats.

By sunset two hundred and fifty Spaniards were masters of Bridge-town, the islanders were disarmed, and at Government House, Governor Stead, supported by Colonel Bishop and some lesser officers, was being informed by Don Diego, of the sun that would be required in ransom. For a hundred thousand pieces of eight and fifty head of cattle, Don Diego would forebear from reducing the place to ashes. And what time that suave and courtly commander was settling these details with the apologetic British governor, the Spaniards were smashing and looting, feasting, drinking, and ravaging after the hideous manner of their kind.

Mr. Blood, greatly daring, ventured down at dusk into the town. What he saw was fetching him in haste and white-faced out of that hell again, when in a narrow street a girl hurried into him, wild-eyed, her unbound hair streaming behind her as she ran. After her, laughing and taring in a breath, came a heavy-booted Spaniard. Almost he was upon her, when suddenly Mr. Blood got in his way. The doctor had taken a sword from a dead man's side some little time before and armed himself with it against an emergency.

As the Spaniard checked in anger and surprise, he caught in the dusk the wild gleam of that sword which Mr. Blood had quickly unsheathed.

"Ah, perro inglés!" he shouted, and lunged forward to his death.

"It's hoping I am ye're in a fit state to meet your Maker," said Mr. Blood, and ran him through the body. "He did the thing skillfully," with the cold, timed skill of executioner and surgeon. The man sank in a hideous heap without so much as a groan.

Mr. Blood swung to the girl, who leaned panting and sobbing against a wall.

"He caught her by the wrist. They sped down an alley, and white-faced, physically sick, Mr. Blood dragged her almost at a run up the hill towards Colonel Bishop's house. He knocked, but had to knock again and yet again before he was answered.

"Who is there?" The voice was Miss Bishop's, a little tremulous, but unmistakably her own.

"It is I—Peter Blood," he gasped. "What do you want?"

At the sound of her voice, the girl Mr. Blood had rescued peered up through the gloom.

"Arabella!" she called. "It is I, Mary Trill."

After a brief pause the door opened wide. Mr. Blood strode in, followed by his dispirited companion, who, taking upon Arabella's slender bosom, surrendered herself to a passion of tears.

"Whom have you here with you? What servants?" he demanded sharply. The only male was James, an old negro groom.

"The very man," said Blood. "Did him get out the horses. Then away with you to sleep! Now, you will be safe here, you are in danger—in dread danger. The devil's only beginning. In God's name, madam, take my word for it, and do as I bid you."

"He . . . he saved me," sobbed Miss Trill.

"Let that wait," snapped Mr. Blood almost angrily. "Will you please call James, and do as I say—said at once."

"You are very peremptory . . ."

"Yes, yes," the girl cried, shudder-

ing. "Do as he says—Oh, for pity's sake, Arabella."

The horses came at last—four of them, for in addition to James who was to act as her guide, Miss Bishop had her woman, who was not to be left behind.

Mr. Blood lifted the slight weight of Mary Trill to her horse, then turned to say good-bye to Miss Bishop, who was already mounted. He said it, and seemed to have something to add. But whatever it was it remained unspoken. He went off briskly in the direction of the stockade, where his fellow-slaves awaited him in deep anxiety and some hope.

CHAPTER IX.

The Rebels' Convict

There were, when the purple gloom of the tropical night descended upon the Caribbean, not more than ten men on board the *Cinco Lagos*, so the convicts were the Spaniards of the complete subjection of the islanders.

As a matter of fact, whilst the main body of the Spaniards feasted and rioted ashore, the Spanish gunner and his crew were feasting on the gun-deck upon the wine and the fresh meats fetched out to them from ashore. Above, two sentinels only kept vigil, at stem and stern. Nor were they as vigilant as they should have been, or else they must have observed the two wherries that under cover of the darkness came gliding from the wharf, with well-greased rowlocks, to bring up in silence under the great ship's quarter.

From the gallery still hung the ladder by which Don Diego had descended to the boat that had taken him ashore. The sentry on guard in this gallery, coming presently round this gallery, was suddenly confronted by the black shadow of a man standing before him at the head of the ladder. It was Peter Blood.

The wooden taffrail was a low one, and the Spaniard was taken completely by surprise. Save for the splash he made as he struck the water, narrowly missing one of the crow's nests that waited under the counter, not a sound announced his misadventure. Armed as he was with corselet, cuirass and headpiece, he sank to trouble him no more. Within five minutes they had swarmed aboard, the entire twenty of them overloading from the narrow gallery and crouching on the quarter-deck itself.

(To be continued)

Entertaining in New York

Ordinary Evening's Cost For Two is About \$31.50

What does an ordinary evening's entertainment cost in New York for two persons? A man about town has figured it out. Dinner at any first-class cafe is about \$10 with the tip. Good seats to a reigning theatrical hit are at speculative prices—and they have the good seats—\$10.50. A night club concert charge is \$2 each. A bottle of tabac for \$1 and a mild repast is about \$4. Figure taxi fare about \$2 and you have a total of \$31.50. This is not considered a splurge for if one orders a bottle of superlative wine the bill is around \$50 for the evening—New York Correspondent.

Telephone service between Angora and Constantinople is being planned.

First Radio Station Made More Powerful

Marconi Station CFCF, Montreal, Now In Super-Power Class
Five years after it first gave radio broadcasting to the world, Marconi station CFCF, Montreal, was changed into a super-power station at the end of December.

The new Marconi transmitting apparatus, which is exactly similar to that used by station CKAC, Montreal, gives station CFCF a power of seven kilowatts, making it one of the most powerful in the world.

No less than thirteen Marconi transmitting valves are used in the new apparatus. Of these seven are of the 1,000-watt type and six of 500-watt capacity. The smaller valves, which are about the size of a coconut, are used for treating the sound energy to triple phase rectification before being sent into the air, in order to absolutely eliminate all carrier wave hum when the set is in use. The 1,000 watt valves are about the size of a soccer football and are used for modulation and oscillation.

With the new set, station CFCF has been reaching places in Canada in which it was never heard before. Letters of appreciation have been received from Manitoba, Saskatchewan, Alberta and also from western states as far away as California.

The station broadcasts on a wave length of 460 metres and is on the air Monday and Friday nights from 7.30 to 10 p.m. E.S.T.

Interesting Discovery in Egypt

Discover Tomb Ante-Dating King Tut, By 3,500 Years

American excavators in Egypt have unearthed a tomb that ante-dates the famous resting place of King Tut-an-Amen by 3,500 years.

News of the find reached London in a cable from the manager of the White Star offices in Cairo.

The find includes a system of passages as well as a tomb and is attributed to the Third dynasty period. It was discovered at Sakarra, in the neighborhood of the Step Pyramid. The diggers also found what is described as a marvelous statue of King Tut-an-Amen at the beginning of known history. There is scarcely any limit to the information that the discovery may uncover.

LITTLE HELPS FOR THIS WEEK

I am not alone, because the Father is with me.—John xvi, 32.

What though we fall, and bruised and wounded lie.

Our lips in dust? God's arm shall lift us up to victory.

In Him we trust.

For neither life, nor death, nor things below.

Nor things above, Shall ever sever us that we should go From His Great love.

—Frances Power Cobbe

There is no father, no brother so pitiful and companionable as He who calls you His child. Whatever else may fall, be sure that His everlasting love will not fail. He is with you in your struggle against sins, in your search for truth, your woes and griefs and loneliness and trials. All your hope, all your patience, all your regard for what is excellent and imperishable, come from Him. And as He has given you your capacity for His friendship and His likeness, He will train you and guide you to Him if it is your sublimity and obedient.

—Horatio N. Powers.

Servant—I can't get this 'ere fault-finder to borry.

County Doctor.—Oh, never mind. We're only going home, and I've not the constable safe-in-bed with lunbago.

Don't Neglect Your Skin

Ladies—A few days' treatment with CARTER'S LITTLE LIVER PILLS will do more to clean up the skin than all the beauty treatments in creation. An impure complexion is caused by a sluggish liver.

Small Pills—Small Dose—Small Price

Radio Licenses

A total of 78,057 private radio receiving licenses have been issued by the radio branch, department of marine and fisheries, from April 1 to December 31, 1924, including 9,900 in December. In the corresponding period in 1923 the number granted was 22,648.

WOMAN'S HEALTH WHEN FORTY-FIVE

A Critical Period When Dr. Williams' Pink Pills Are a Real Blessing

At special periods a woman needs a medicine to regulate her blood supply, or her life will be a round of pain and misery. It is at such times that Dr. Williams' Pink Pills are worth their weight in gold, for they make the new rich blood that banishes the symptoms of distress that only women know. The better blood that comes with the use of these pills strengthens every vital organ and brings womanly health and happiness. This is fully proved by the cases of Mrs. G. Wilthub, Arcola, Sask., who says:—"I am one of the many for whom Dr. Williams' Pink Pills have done wonders. About three years ago I was so weak that I could not do my housework, or even go about without feeling utterly worn out. The doctor suggested that an operation was the only thing that would help me, but this I refused to undergo, and I returned home almost in despair. My trouble was all due to the lingering change of life. At this stage I read an advertisement of Dr. Williams' Pink Pills and decided to try them. By the time I had used six boxes there was no doubt they were just what I needed, and under their continued use for some time my health was fully restored, and since that time I have been in the best of health. I am writing this letter in the hope that it may induce some other suffering woman to use Dr. Williams' Pink Pills and regain her health." These pills are sold by medicine dealers or will be sent by mail at 50c a box by writing the Dr. Williams' Medicine Co., Brockville, Ont.

SURPLUS PROFITS OF WHEAT BOARD COMING TO WEST

Ottawa.—Western Canadian farmers will be some half million dollars richer this spring by the distribution among the western provinces of the surplus profits of the operations of the Canada wheat board, which marketed the 1919 crop.

The order-in-council, which authorizes the disposition of this much disputed surplus, now residing in the treasury of Canada, has not been signed, and details of the amount available and of how much will go to the respective provinces, have not been made public, but it is understood that the government has decided to return the money to the western wheat growers, whose grain, marketed under wartime wheat pool conditions, netted for the now extinct Canada wheat board a profit over the estimated returns. The amount available in the treasury was estimated last season at \$500,000 by delegations who waited upon the government to ask for the payment of the money to finance the initial transactions of provincial wheat pools handling last season's crop. At that time the acting minister of finance, Hon. J. A. Robb, told the delegation that the government would hold the money as security for the amounts, still owing the government on seed grain advanced to western farmers. These amounts last season were totalled at more than \$2,000,000.

Viewpoint Of France On Debt Payments

U.S. Should Not Collect Full Sum Is Deputy's Theory

Paris.—In a five hours' speech in the Chamber of Deputies, Louis Marin, former under secretary of state and now an opposition deputy, expounded what appeared to be the French Parliament's viewpoint on the inter-allied debts question. In his thesis, summing up the entire question, Deputy Marin declared that it would be a moral inquiry should France be compelled to pay the enormous sums demanded of her by the United States. M. Marin's theory of the inter-allied problem was received with almost unanimous approval and applause. He contended that the debts could not be equated as commercial obligations, but that they were merely for the purpose of defending France, but that they were in to protect their own interests.

U.F.A. Approve Pools

Think It Good Way to Handle Livestock and Dairy Products

Calgary.—In the course of an afternoon devoted to discussion of co-operative marketing, general endorsement was given by the members of the Alberta U.F.A. to proposed pools for the handling of livestock, of dairy products, and of eggs and poultry. These are to be separate from and independent of the U.F.A. and the Alberta Wheat Pool, and to equal other, with their own boards of directors and managements. All of them are to be organized on the basis of five-year contracts, which are now being signed, although no general campaign for signatures has yet been waged.

Arrest Self-Styled Indian Chief
Berne, Switzerland.—Tewanna, a self-styled Canadian Indian chief, wanted in connection with swindling and imposture charges in Switzerland and Italy, has been arrested in Neuchâtel.

The police claim that Tewanna's father is a farmer and his mother a factory worker in Canada. Tewanna, however, says he has Canadian estates worth \$250,000,000.

Award Elevator Contract
Vancouver.—The initial contract for the Prince Rupert grain elevator was awarded Jan. 21, when the tender of the Northern Construction Company of Vancouver, for the foundation work, was accepted, according to Ottawa messages. The contract figure is \$225,000.

W. N. U. 1561

New Cable Service Has Been Inaugurated

Winnipeg.—A new cable service connecting Canada, Spain and Italy, and shortening the time necessary for transmission between these countries has been inaugurated, according to an announcement made by Canadian National Telegraph officials here. They have been advised by the Western Union that the new high speed cable from New York direct to Asores, Spain, is now open for handling cables, and the line of the final section, giving direct connection between Canada and Italy, has been begun. Messages previously were sent via the British Isles.

Will Urge Needs Of Saskatchewan

Premier Dunning Has Eleven Resolutions To Present at Ottawa

Regina.—Personal presentation of Saskatchewan's views on the necessity for the construction of branch lines in the province, the tariff, equalization of freight rates and other matters over which the federal authorities have jurisdiction will be made at Ottawa by Premier Dunning.

Armed with 11 resolutions passed unanimously at the session of the legislature, Premier Dunning left here for Ottawa, where he will take each of the resolutions up with the Dominion government.

While in the east Mr. Dunning hopes to be able to clear up the tangle over the Turtleford-Halford extension of the Canadian National Railways and make some satisfactory arrangement whereby the balance of the Saskatchewan railway guarantee fund will be used on the construction of this road this year.

Conference May Be Postponed

Disarmament Meeting Not Likely to Be Held in March

London.—There is little prospect of the disarmament conference, under the League of Nations, being held in March, as was proposed, now that the conference of the Dominions on the Geneva protocol has been found impracticable.

The government feels that it has not sufficient time to obtain full reports from the Dominions in time for such a conference, and will be forced to ask the league for its consent to a postponement of the meeting.

The decision to abandon the Imperial conference was taken with the full authority of the government, although up to the last minute Col. Amery was in consultation with the various members of the cabinet before the official publication of their joint decision.

Every means was apparently tried to save the conference, and thereby avoid postponement of the disarmament assembly.

Allies Agree On Reply To Germany

Will Answer Note of Protest Against Cologne Occupation

Paris.—The allies have decided to reply to the recent German note of protest against the continued occupation of the Cologne bridge head.

The exchange of views which has been going on between the chancellors has resulted in an approach to an agreement as to the text of the reply which, it is understood, will go further into details regarding the cases of alleged violation of the treaty disarming clauses than the preceding note, but in a rather softer tone.

The allies now have in separate reports from the members of the military control mission nearly all the elements expected in the final report on the military situation in Germany, and will probably deal with the question decisively in the near future through the council of ambassadors.

German Over-Payments

Paris.—Seymour Parker Gilbert, agent general on reparations payments, has presented to the reparations commission a statement of the Dawes plan results to date, mentioning the fact that Germany had, since the new agreement began working, overpaid the allies something like 20,000,000 gold marks.

Banker Moves Up

C. W. Rowley, prominent Winnipeg banker, who has been promoted to the position of Assistant General Manager of the Canadian Bank of Commerce.

Soviets Honor Dead Leader

Russia Mourns On First Anniversary Of Death of Lenin

Moscow.—All Soviet Russia was mourning the first anniversary of the death of Nikolai Lenin, whose memory among the Communists is venerated as the founder of the Soviet regime. Official Soviet buildings at home and abroad were ordered draped with red flags fringed by crepe and all stores, theatres and restaurants were directed to close. The sale of liquor was forbidden.

In towns and villages, factory work and traffic ceased for five minutes as a mark of respect. The Soviet newspapers printed long articles detailing Lenin's life and achievements, and millions of pamphlets containing his writings were circulated among the masses. It is a coincidence not without interest that on the anniversary of Lenin's death his great competitor, Trotsky, should be preparing for his own political doom. The newspapers call attention to this and foresee that, with Trotsky out of the political picture, Lenin's death will gain all the glory which Trotsky in life has lost.

Have Signed Treaty

Peking.—The treaty between Japan and Russia, providing for resumption of diplomatic relations, which was signed here, consists of seven articles. The Soviet agrees to give coal and oil concessions to approved Japanese on advantageous terms for a period of forty or fifty years; also the right to exploit the oil fields.

The Soviet royalties in the case of coal will amount to 8 per cent, and in the case of oil from 5 to 15 per cent, with 45 per cent, where gushers are brought in. Materials required for such enterprises will be admitted free of duty.

Awarded Damages For Injury

Ottawa.—Because the regular chauffeur, as defined in the Ontario Motor Act, allowed a 13-year-old boy to drive the truck, Mr. Justice Logan rendered judgment allowing James P. Matheson \$3,000 and costs in the latter's action against the F. D. Burkholder Company, Limited, whose truck struck the plaintiff as he was alighting from a street car here last May.

LADY MARGARET BOSCAWEN of London, sister of Baron Byng of Vimy, Governor-General of Canada, was among the passengers arriving in New York on board the Canadian Pacific S.S. "Empress of France," enroute to Ottawa.

Plan To Improve Commercial Relations

Halifax.—The Halifax Herald announced that in the interest of stimulating commercial relations between east and west in Canada and diverting Canadian trans-Atlantic shipments to maritime ports, that paper would send an expedition of representative business men to upper Canada and the western provinces. His purpose would be to lay before representative bodies in those sections of Canada the facilities of the maritimes, get the views of the western shippers and to "sell the maritime ports."

Government Has Not Decided On Action

May Ask Amendment to British North America Act

Ottawa.—The government has not made any decision as to the course which will be followed as a result of the judgment of the judicial committee of the Privy Council on the Industrial Disputes Act.

The Federal Government has two courses, if no more, which it may follow. It may accept the decision of the Privy Council, scrap the Lemieux Act, and leave the handling of industrial disputes entirely in the hands of the provinces, or it may apply to the government of Great Britain for an amendment to the British North America Act.

The judgment of the Privy Council has left the government without the means of compelling arbitration of differences between employers and employees, who were reached under the Industrial Disputes Act. Under the Lemieux Act, a strike or lockout instituted without an application for a board of conciliation was illegal, and those responsible were subject to penalties laid down in the statute.

Airplanes Cross Desert. From North to South

Three French Army Planes Have Made First Trip

Paris.—The French air mission of two planes which is attempting a flight to Lake Tchad, Central Africa, is found at Aford, France.

In the meantime, the president of the Aeronautic League announced the receipt of a telegram stating that the Sahara desert had been crossed north and south by airplanes for the first time. The expedition, which started three French army planes, piloted by three officers, started at Dakar, crossed the desert from both the north and south, covering over 3,750 miles, thus continuing the creation of air lines across the French Sudan.

May Tunnel Thames

London.—To relieve the traffic congestion in London, plans have been made for the construction of a dock on the River Thames and a tunnel under the river at a cost of over \$30,000,000. The tunnel would be constructed at Dartford, which would divert a great amount of road traffic from the south to the north of England at present passing through London's narrow streets.

Reach Belgian Congo

Paris.—While Captain Georges Pelletier d'Oisy and his fellow passengers of the trans-Saharan Arab expedition were held by fog near Bourges, the automobile magazine Citroën, has received word that his second catamaran car expedition has reached the frontier of the Belgian Congo.

Sees Security For Bank Depositors

Windsor, Ont.—Some measure of indemnification for Home Bank depositors will probably be brought down in the house this session, A. F. Healy, M.P. for North Essex, stated. He declared that the government had practically admitted its moral responsibility for the loss suffered by the depositors at the last session.

Sail For Shanghai

Manila.—United States destroyers, comprising division No. 45, left here for Shanghai, where factional leaders and military governors were contesting for possession of that city. With the arrival of the ships the United States navy will have 12 destroyers off Shanghai.

SAYS COMPLETION OF BAY RAILWAY IS FEDERAL JOB

Winnipeg.—The construction of the Hudson's Bay Railway by the provincial governments of the western provinces is not favored by Premier Bracken, of Manitoba. According to a statement he made in the legislature during the debate on the speech from the throne. He declared it was not the duty of the provincial governments. "When Nova Scotia builds its own harbors, Ontario the Welland Canal and British Columbia carries out its own harbor improvements, then will he advocate the western provinces building the Hudson's Bay line," said Premier Bracken.

Mr. Bracken announced that a natural resources and industrial development bureau would be established by the government. A survey of the natural resources would be made. Referring to efforts to have the natural resources returned from federal to provincial control, the premier said Manitoba could not take the same terms of settlement of the resource question as Alberta. Most of the Manitoba resources were gone, while Alberta has still considerable coal and oil resources held by the crown.

Anglo-Saxons Asked To Save St. Paul's

World-wide Appeal For Assistance to Preserve Memorial

London.—Interest aroused abroad in the project undertaken by the dean and chapter of St. Paul's to safeguard the cathedral for generations to come, has led to their making an appeal not only to the British Empire but to Anglo-Saxons throughout the world to assist in preserving the great memorial threatened by crumbling lands the massive piers which support the famous dome.

The task is to inject cement under pressure into piers which when built were filled internally with rubble, and thus give new life to these enormous columns. For this it has been estimated that the sum required may approximate £250,000, or nearly \$7,250,000. Reuter's news agency of London have undertaken to collect subscriptions abroad.

Avers Protection Too Low

National Commercial Spirit Needed Says Hon. C. C. Ballantyne

Toronto.—Canadian trade for Canadian manufacturers, and the development of the national commercial spirit by the people of the Dominion, formed the policy which Hon. C. C. Ballantyne, of Montreal, advocated for the regeneration of Canadian industry and for making the Dominion one of the leading manufacturing centres of the world, when speaking at the annual dinner of the Canadian National Clay Products Association here.

He considered the time opportune for the Dominion Government to ease the burden of taxation upon the manufacturer, and, while he did not wish to discuss politics, he felt that the administration should "get down to rock bottom" and afford protection to the manufacturer, the workman, and the farmer.

Officials Arrested In India

London.—Seven officials have been arrested at Indore, British India, including the aide-de-camp of the Maharajah of Indore, in connection with the affair in Bombay, which resulted in the death of the wealthy merchant, Abdul Kadir Baula, says an agency dispatch from Bombay. The Maharajah's chauffeur was also taken into custody.

Proposes Memorial For King

Rome.—Premier Mussolini has sent a message to the Milanese committee which is arranging for the celebration of the twenty-fifth anniversary of the King's accession to the throne, in which he proposes that the occasion be celebrated by the creation of a national institute for the study and cure of cancer.

Accept Naval Change

Washington.—Without discussion or a record vote, the senate accepted an amendment to the naval bill requesting President Coolidge to call another arms conference.

BAKE YOUR OWN BREAD

ROYAL YEAST CAKES

STANDARD OF QUALITY FOR OVER 50 YEARS.

HOME-BAKED BREAD IS BEST OF ALL

The Gold Standard

U.S. Will Help Keep Pound at Parity If It Gets There

The United States has promised to help sustain the pound sterling at parity if it returns to the point, according to the London Morning Post. Montagu Norman, governor of the Bank of England, has obtained the promise of the federal reserve board that if the pound reaches a gold standard, only to be hammered by speculators, the board will help sustain the pound "up to an agreed amount."

MOST OLD FOLKS REQUIRE A HEART AND NERVE TONIC

After middle age little sickness and ailments seem harder to shake off than formerly, as the heart action becomes weak and uncertain and the nerves are not as steady as they were in the younger days.

Now is the time when all aged people who wish to maintain their health and vigor and retain their energy unimpaired should use

MILBURN'S

HEART AND NERVE PILLS

Mrs. M. O'Connor, Whitehorse, Ont., writes: "I have been troubled, most of my life, with shortness of breath, palpitation of the heart, and fainting spells. I was advised, by a friend, to try Milburn's H. & N. Pills, which I did, and at once found relief. I have never had a really bad spell since. I am 50 years of age and I always keep them in the house, and feel that with their help I will see many years yet. I always recommend them to anyone who is suffering from heart trouble."

For sale at all druggists and dealers.

Baldheaded men would be satisfied if they could even make one gray hair grow where two others grew before.

Fresh Supplies in Demand.—Wherever Dr. Thomas' Elettrolic Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

After a girl goes on the shady side of 35 she drops the affinity business and begins to hustle around for an ordinary bread-winner.

From School Teacher To Great Eminence

A young man who was brought up on a farm in Western Pennsylvania studied diligently and qualified for district school teacher. Further pursuing his studies and teaching, he managed to save up enough money to put him thru medical college. After the Civil War, he began the practice of medicine in the new oil section of Pa., and often rode horse-back thru the woods to reach and relieve those who were seriously ill. He was a student of nature, and could sense the presence and the medicinal plants growing in the woods. Later, he moved to Buffalo, N.Y., where he launched his favorite remedy, and, in a short time, they were used by the people of the land. Today, the name of this man, Dr. A. C. Thomas, is known throughout the world. His Golden Medical Discovery is the best known blood medicine and tonic. More than fifty million bottles have been sold. If your druggist does not sell the "Discovery," in liquid or tablet form, you can obtain a trial copy of the tablets by sending 10c to Dr. Pierce's Branch Laboratory in Bridgeport, Ont.

WORLD HAPPENINGS BRIEFLY TOLD

Mrs. Miriam A. "Ma" Ferguson, has assumed the duties of state governor of Texas. The inauguration was attended by her husband who was impeached and deposed from the governorship.

Leon Trotsky was relieved of his duties as chairman of the revolutionary war council by the central executive committee of the Communist party, the most powerful political body in Russia.

Reports received at Dawson City from Old Crow mission state that Indians are trapping great numbers of foxes. Meat is reported very plentiful, 500 caribou having been killed so far this winter.

The sermon in Canterbury Cathedral recently was preached by a minister of the Congregational Union, Rev. J. B. J. Carmon, and more than ordinary interest was shown in the service in consequence.

Arguments before the privy council in connection with the appeal of the Manitoba grain futures tax case will start early in March. Hon. W. R. Craig, attorney-general, has announced. Hon. Geoffrey Lawrence, K.C., of London, will act as counsel for Manitoba.

W. E. Roney, attorney-general for Ontario in the Drury Farmer-Labor Government, was chosen by Progressive members of the Ontario Legislature as house leader in succession to Manning Doherty, who declined to continue in the office.

R. S. Ward, one of the directors of the Workmen's Compensation Board of Manitoba, has been appointed acting commissioner pending investigation into the administration of the board's affairs under the late H. G. Wilson.

Miller's Worm Powders not only exterminate intestinal and other worms, but they are a remedy for many other ailments of children. They strengthen the young stomach against biliousness and are tonic to their effects where the child suffers from loss of appetite. In feverish conditions they will be found useful and they will serve to allay pain and griping in the stomach, from which children so often suffer.

Might Solve Traffic Problem

Englishman Suggests Light Motor Car Fitted With Wings

Sir Charles Wakefield suggests a flying motor car as a solution of the traffic problem.

"Why not," he asks, "have a light motor car fitted with wings, so that it could take either the road or the air as the traffic demanded?"

The car-plane consists of a light car, driven by propellers like those of an aeroplane, and light wings which can be folded back on the roof of the car when not in use.

Drove First Train In China

William G. Jackson, who drove the first train that was ever run in China, died at Repton, Southwold, aged 75. Until a few years ago he was engineer of the Southwold Railway.

The Chinese, resenting the introduction of the railroad, at first tore up the lines, and the officials had a very anxious time until the people became accustomed to the presence of the trains.

The Friend of All Sufferers.—Dr. Thomas' Elettrolic Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and brings it off by stilling suffering everywhere. It is a liniment that has the quality of healing a constant. It is on sale everywhere and can be found wherever enquired for.

Dine On Reindeer Meat

Reindeer steaks became popular in Chicago recently when 50,000 pounds of reindeer meat arrived here from Alaska.

Minard's Liniment for Sprains and Bruises

Want No Interference

New Zealand Magistrate Gives Stiff Sentence to Communists.

Sentencing two Communists to three months' imprisonment for selling a book on Communism, encouraging violence and lawlessness, Mr. Poynton, the Auckland, New Zealand, stipendiary magistrate, said: "We can work out our own destiny without the impudent interference of fanatical, anti-British, bloodthirsty aliens. How British communities will tolerate no less this foul work of noxious reptiles passes understanding."

"DIAMOND DYE" IT

A BEAUTIFUL COLOR

Perfect home dyeing and tinting guaranteed with Diamond Dyes. Just dip in cold water to tint soft, delicate shades, or boil to dye rich, permanent colors. Each 15-cent package contains directions so simple any woman can dye or tint lingerie, silk, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings, everything now.

Buy "Diamond Dyes"—no other kind!—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton, or mixed goods.

A New Profession

A bill suggesting bartering to the status of a profession, and providing greater safeguards for the public against sick diseases and incompetent barbers, will be introduced at the next session of the Ontario Legislature.

Her Trouble Started

From a Bad Cold

Ontario Lady's Little Daughter Suffered from Headaches and Was Relieved by Dodd's Kidney Pills

Dodd's Kidney Pills are a kidney remedy and can be taken by young and old.

Williamstown, Ont.—(Special).—We have a testimonial from Mrs. L. Stanley, a well-known resident of this place. She writes to us because she feels that she owes it to other mothers who have children suffering from weak kidneys, to tell them the relief afforded her little girl. She states: "I must write you regarding my daughter's Kidney Pills. I have been giving them to my child, who has been suffering from headaches, broken sleep, little appetite, and was always tired and nervous. I have found your very satisfactory and am going to keep on using them."

Dodd's Kidney Pills have become a family remedy because people who have tried them and found them good. They help Rheumatism, Lumbago, Lame Back, Heart Disturbances, and Urinary troubles, because all these are Kidney Diseases, or are caused by the Kidney failing to do their work.

"Money is the root of all evil," quoted the Wise Guy. "And most of us are robbers," and the simple Mug.

A jelly fish weighing one pound contains more than 15 ounces of water.

ECZEMA AND RED PIMPLES

On Face. Itched Badly.

Cuticura Healed.

"Began first with an itching on my face. Little red pimples formed that itched very badly causing me to scratch. The scratching made the pimples larger and some nights they burned and kept me awake for a while."

My mother recommended Cuticura Soap and Ointment. I sent for a free sample which helped me. I purchased another cake of Cuticura Soap and a box of Cuticura Ointment, and in a month I was completely healed. (Signed) Miss Edith H. Kelley, Rte. 1, Unity, Me., July 12, 1923.

Daily use of Cuticura Soap, Ointment and Catemul helps to prevent skin troubles. It is on sale by all druggists. Address: Cuticura, Inc., 219 N. 1st St., Boston, Mass. Try one now. Shaving Stick.

W. N. U. 1561

MOTHERS LIKE TO TREAT COLDS WITH VAPORS

Direct Treatment with Vaporizing. Serves Immediately Reached Inflamed Air Passages.

It is no longer necessary constantly to dose the children in treating colds, bronchitis, or deep chest colds. Many Canadian mothers now use the "outside" remedy, Vicks VapoRub, for the cold troubles of all the family, because it is just rubbed over throat and chest—there is nothing to take. When so applied Vicks gives off medicated vapors which are inhaled directly into the inflamed air passages, loosening the phlegm and making the breathing easier.

At the same time Vicks is absorbed and stimulates the skin like a liniment or plaster and thus aids the vapors inhaled to break up the congestion.

At all druggists. For Free Test Size Package, write Vicks Chemical Co., 344 St. Paul St., W., Montreal, P.Q.

SUNDAY SCHOOL LESSON

FEBRUARY 1

THE VINE AND THE BRANCHES

Golden Text: He that abideth in Me, I in him, the same beareth much fruit. John 15:5.

Lesson: John 15:1-27.

Devotional Reading: Psalm 119:1-18.

The Text Explained and Illuminated. Christ the True Vine, verse 1. "I am the true vine, and my Father is the husbandman." This metaphor which have been suggested by the fruit of the vine which had just been used and consecrated to the Last Supper, by the many vines on the hillside, or by the odor of branches which the vine-dressers burned at the close of the year. Yet it was a well-known metaphor: Jeremiah speaks of the vine that bore fruit that was turned into degenerate branches, Jer. 2:21. The Exodus' Greek Testament recalls to the Last Supper, the vine which bore fruit that was turned into degenerate branches, Jer. 2:21. The Exodus' Greek Testament recalls to the Last Supper, the vine which bore fruit that was turned into degenerate branches, Jer. 2:21. The Exodus' Greek Testament recalls to the Last Supper, the vine which bore fruit that was turned into degenerate branches, Jer. 2:21.

For First Aid—Minard's Liniment

The Gutenberg Bible is thought to be the first book ever printed.

Awful Asthma Attacks. Is there a member of your family who is in the power of this distressing trouble? No service you can render him will equal the relief that is afforded by Dr. J. D. Kellogg's Asthma Remedy. This remarkable remedy rests its reputation on the fact that it has been used for years and years of success in almost every part of the continent, and even beyond the seas.

It is officially announced by the admiralty that the Prince of Wales will go to South Africa on H.M.S. Repulse.

Best For Coughs & Colds

Minard's gives quick relief for coughs and colds, grippe, influenza, etc. Madame J. Edmond Potras, of Farnborough, St. Jean Ste. Quebec, is one of hundreds who highly recommend it. She writes as follows: "After having tried several syrups and rubbing lotions for cough I consider that Minard's is the best remedy I have used. I also value it for warts, which I have quickly removed with Minard's."

Stony Plain and District.

Mrs Kowensky and child-
ren arrived home on Sunday
from Vancouver.

Mr Eric Pimpeit of Legal
returned home Monday after
a short visit with his sister,
Mrs E A Pitzler.

The hockey game Sunday
afternoon at the local rink be-
tween the High School team
and the Regulars was won by
the latter with a good score.

Wheat has taken another
up-jump in price the past
week, and has only 15c to go
to hit the \$2 mark in Stony.

Mr E A Pitzler has pur-
chased the registered Percen-
eron stallion 'Leo' from Mr
Sprague of Beverly.

Mrs Adolphus Lenny of
Mewassan was taken to an
Edmonton Hospital on Fri-
day last for treatment.

The dance at Hansen's
Corner's School House Fri-
day evening last drew a fairly
good crowd, although the
party from Stony did not get
there, having been hung up
in a snow drift.

Those intending getting a
license for their radio receiv-
ing set may see the instruc-
tions at the Sun Office.

Miss Edith May (daughter
of Mr and Mrs J A Jamieson
of Brightbank) was married in
Stony Plain last week, to
Mr Rhinehart Kincart, Inga.
The ceremony was performed
by Rev W J Whelan, after
which the happy couple left
for the City.

Mr Jas Couch held a big
auction sale last week, on his
farm near Wintertown.

The Alberta Legislature
meets Thursday Feb. 19. The
Premier expects the session
to last eight weeks, with an
extra session next September.

Applications for auto licen-
ses may be had at The Sun
Office.

Holborn News.

A special meeting of the
ratepayers of Holborn S. D.
will be held in the school-
house at 3.30 p.m. on Monday
Feb. 2, for the purpose of
electing a trustee, as Mr F
Mair not being a British sub-
ject cannot accept the posi-
tion of trustee. W C Williams
Sec. Treas.

Mr Hopkins is busy saw-
ing wood, preparing for the
next cold snap.

Considerable complaint is
heard about the condition of
the roads, particularly by
those engaged in grain haul-
ing.

Mr Maier is taking advan-
tage of the warm weather, and
is busy hauling straw from the
Charlie Williams place.

Mr S C Elliot is in Calgary
this week.

Mr S C Elliot is said to
have been promoted to the
managership of the local bank,
the present incumbent being
moved to Strathecona.

Trustee Graden of Comet
and Trustee E A Pitzler of
Warden will be delegates to
the Trustees' convention in
Calgary next week.

Mr Th Wudel, Garden Val-
ley S. D., is the delegate to
the trustees' convention at
Calgary.

Mr M Aronson made a
business trip to Edmonton on
Monday.

Services were conducted in
the Ruthenian Church, Car-
vel, on Sunday last, by Rev
E Teodorovich of Edmonton.

Mr Wm Best, auditor for
Inga M. D., is in Calgary this
week, and the books of the
municipality will be audited
immediately on his return.

Judgment in favor of the
Monticello State Bank for
\$1299 was given by Mr Jus-
tice Tweedie in the Supreme
Court last week against R W
Clements, L Hadley, J Green-
bough, T Hearn and N H
Pidgeon, farmers of Duffield
district. The action arose out
of notes given for purchase of
a stallion.

May wheat passed the \$2.10
mark in Winnipeg this week,
and thus the prediction of a
large number of prophets, in-
cluding Henry Wise Wood,
is realised.

Burns' Anniversary

On Friday evening January
23 the Ladies' Aid held a
Burns' party at the home of
Mrs Oatway. The evening
was opened by pining the
tann on Harry Lauder's head.
The prize was given to Mr
Witmer. The next game was
the minister's cat and another
was charades. The greater
part of the crowd was di-
vided into four groups, each
group got a prize for acting
some Scotch words—Dundee,
Gaelic and other hard Scotch
words were very cleverly ac-
ted. After a dainty tea was
served the remainder of the
evening was spent in singing
Scotch songs and the telling
of Scotch jokes, in which Mr
Founds and Mr Ingram took
an active part. After a good
time was spent by all the
party adjourned.

Those present were—Mr
Witmer and family, Mrs J I
Clarke, Miss Michael, Miss
Knin, Miss Laverty, Mr and
Mrs and Mrs E Fishenden,
Miss McNab, Mr Founds,
Mr and Mrs Malloch, Mr and
Mrs Whelan, Mr and Mrs G
E Clarke, Mr and Mrs Brooks,
Mrs McNalla, Mr Kibble-
white, Miss McGrath, Mr
Backe, Mr Ingram, Mrs Lan-
dy, Mrs Walton, Mrs Lory,
Mrs Campbell, Giles Clarke,
Marrie Clarke, E Lory, and
H Wolfe.

Card of Thanks.

Mr and Mrs Arthur A
Graden wish to thank all
the kind friends for their ex-
pressions of sympathy, and of-
fers of help, on the occasion
of their recent sad bereave-
ment.

Municipality is Well Off.

Municipality No 37, known
as Sugar City municipality in
the district of Raymond in
Southern Alberta, is reported,
in a statement issued the past
week, to be in such splendid
financial condition that there
will be no tax levy necessary
for the coming year. This
condition of affairs has been
brought about since the or-
ganization of the municipality
two years ago.

HERE AND THERE

Sweeping changes in the Canadian
Pacific Railway's service of great
benefit to the communities concern-
ed are scheduled for January 11.
They include revision of the time-
table of the Vancouver express (To-
ronto-Vancouver), to reach Port
William and Port Arthur between 10
and 11 p.m., instead of 2 and 3 a.m.,
and Winnipeg at 10 a.m., instead of
2.30 p.m., as heretofore. The new
times are more convenient to the
Twin Cities than the old and a half-
day is gained for business in Win-
nipeg. Begins to be reached by
the same train at 11 p.m. instead of
1.20 a.m., and Moose Jaw at mid-
night instead of 2.45 a.m., Regina-
Saskatoon connections being thus
radically improved, while arrival at
Calgary at 4 p.m., enables Edmonton
to be reached that evening. Van-
couver is reached at 7 p.m. instead
of 9.30 p.m. as previously. The To-
ronto Express (Vancouver-Toronto)
reaches Winnipeg more conveniently,
while arrival at Toronto at 8.40
a.m. will make possible connections
with early morning trains for On-
tario points and with day trains for
American cities, thus saving more
time. Gains on other trains between
Montreal, Ottawa, Toronto, Chicago
and Winnipeg are also scheduled.
These arrangements follow the can-
cellation of the recently inaugurated
train between Winnipeg, Montreal
and Toronto, which is to come off
January 10.

TOWN OF STONY PLAIN.
